

IS TIER 1: MAKE IT MAKE SENSE RIGHT FOR ME?

- 1 Who is this session best for?**

This is best for business owners who attended a workshop, webinar, or training and understand the information but need help applying it to their specific business.
- 2 Do I need to bring anything to the session?**

Yes. Bring your notes, slides, recordings, or a summary of what you learned. The more context you share, the more tailored the session will be.
- 3 Will you tell me exactly what to do?**

Yes, in a simple and realistic way. We'll break the information down, identify what applies to your business, and create a short action plan you can start right away.
- 4 How detailed is the action plan?**

The action plan includes 3 to 5 clear steps focused on what matters most right now. It's designed to be simple, not overwhelming.
- 5 What does the follow-up email include?**

You'll receive a recap of the session, your action plan, any links or tools discussed, and space to ask one clarifying question after the session.
- 6 Is this ongoing support?**

No. This is a one-time session with one follow-up email. If you need continued support, the 30-Day Implementation option may be a better fit.
