

IS OPTION 2: PROJECT MANAGEMENT RIGHT FOR ME?

- 1 Is this full project management?**

Yes. This option includes hands-on project management and implementation support. We help organize tasks, manage timelines, coordinate with team members or contractors, and keep the project moving from start to finish.
- 2 Who is this best for?**

This is best for business owners or teams who don't have the time, capacity, or structure to manage a project on their own and want a trusted project manager to oversee the details.
- 3 What does “done-with-you” support mean?**

It means we work alongside you. We manage the project structure, communication, and progress, while you stay informed and make key decisions as needed.
- 4 Will you communicate with my team or contractors?**

Yes. This tier includes coordination and communication with your team members, partners, or contractors to ensure everyone stays aligned and accountable.
- 5 How is pricing determined?**

Pricing starts at \$1,250 and is customized based on the size, scope, and level of support required for your project. Final pricing is confirmed before services begin.
- 6 What's the difference between this and light project management support?**

Light support focuses on planning, structure, and guidance. Full support includes active oversight, coordination, tracking, and implementation.
